

Job Title: Facilities Maintenance Technician

Location: Explorium, Dublin

Contract: Full-time, Permanent

Who we are

Explorium is an exciting state of the art Science and Sport visitor attraction located in Dublin. It is a huge facility (110,000 sq ft), with over 250 new and interesting things to do for families, schools and visitors of every age. This exciting centre is the first of its kind in Ireland and we are sure that we have created something unique and very special. Our focus is on the brilliant experience we give to our visitors. We are currently seeking a full-time Facilities Maintenance Technician to work on a rostered shift basis working 5 days over 7, with regular weekend work and occasional evenings.

Role Summary

The Facilities Maintenance Technician will support the smooth operation, safety, technical functionality, and overall upkeep of a large-scale science and sport visitor attraction (110,000 sq ft). This role requires a multi-skilled technician with mechanical, electrical, and general maintenance abilities to ensure all exhibits, equipment, and building infrastructure remain in optimal working order.

Key Responsibilities

Building & Facilities Maintenance

- Conduct routine preventative maintenance across the building and associated systems.
- Perform basic mechanical, electrical, and electro-mechanical repairs.
- Complete cosmetic and structural upkeep, including painting, general repairs, minor plumbing and minor carpentry.
- Inspect, test, and maintain fire safety equipment and building safety systems.

Exhibit Maintenance

- Support daily maintenance of interactive science exhibits.
- Diagnose faults in exhibit lighting, mechanical parts, sensors, and technical components.
- Carry out minor repairs and adjustments to ensure exhibits remain operational.

- Perform daily inspections of exhibit zones, reporting and resolving malfunctions.

Technical & Tools-Based Work

- Safely operate hand tools and power tools for repair and maintenance tasks.
- Install or adjust simple equipment and fittings as required.

Compliance, Health & Safety

- Perform regular H&S checks and identify hazards.
- Support emergency procedures including fire marshal duties and evacuations.
- Ensure contractors follow H&S protocols while on site.

Operational Duties

- Assist with moving, installing, or storing exhibits, furniture, or equipment.
- Conduct opening and closing procedures for the building.
- Ensure premises, equipment, and storage areas remain secure and well-organised.
- Liaise with cleaning and maintenance teams to coordinate tasks.

Requirements

- Leaving Certificate or equivalent and relevant vocational qualification
- 2+ years' experience in building or facility maintenance
- Competency with mechanical systems, hand tools, and power tools
- Knowledge of health & safety standards, COSHH, basic mechanical principles
- Strong communication and problem-solving ability
- Reliable, organised, proactive work ethic
- Time Management
- Ability to work under pressure and to strict deadlines
- Positive health & safety attitude
- Must be able to commute easily to Blackglen Road, Sandyford, Dublin 18
- A reliable, flexible, organised and responsible disposition
- Fluent English

- Authorisation to work in Ireland
- Successful Garda Vetting disclosure
- Excellent health, attendance and punctuality record..

To Apply:

Send CV and cover letter to hr@explorium.ie by 15th June 2026.

Explorium is committed to a workplace environment that promotes diversity and inclusion and creates an open and inclusive culture where everyone feels valued. Employment decisions are based on merit, job requirements and business needs. Appointment is subject to Garda Vetting. Interviews may commence prior to the closing date.
